PROFESSIONAL SUMMARY

MERN Stack Developer and Web Developer with hands-on experience building responsive frontend interfaces and full-stack web applications. Skilled in React.js, JavaScript, Node.js, Express.js, MongoDB, REST APIs, and responsive web design. Experienced in developing reusable UI components, integrating APIs, implementing backend services, and building scalable web applications.

TECHNICAL EXPERTISE

Frontend: React.js, JavaScript (ES6+), HTML5, CSS3, Next.js, Flexbox, CSS Grid, Responsive Web Design
Backend: Node.js, Express.js, RESTful APIs, Authentication, Middleware, CRUD Operations
Database: MongoDB, Mongoose
Tools: Git, GitHub, VS Code, Chrome DevTools, npm, vite
AI Development Tools: ChatGPT, Claude, Antigravity

EXPERIENCE

MERN Stack Developer Intern 03 Jan 2026 - 03 Jul 2026 (6 Months)
RS Education Solution - Educational Consultancy and Student Guidance Platform

- Developed responsive and reusable user interfaces using React.js, JavaScript, HTML5, and CSS3.
- Built and integrated RESTful APIs using Node.js and Express.js for full-stack application functionality.
- Integrated MongoDB with Mongoose for data management and CRUD operations.
- Implemented frontend-to-backend API integration and handled application data through REST APIs.
- Used Git and GitHub for version control and project development.
- Worked on improving responsive design, usability, and overall application performance.

Web Development Intern Jun 2025 - Jul 2025

- Developed responsive web interfaces using HTML5, CSS3, and JavaScript.
- Created reusable UI components and implemented responsive layouts for different screen sizes.
- Improved cross-device compatibility across desktop, tablet, and mobile views.
- Applied modern frontend development practices to improve usability and interface consistency.

CORE PROJECTS

AgriTech - Smart Farming Platform
MERN Stack

- Developed a full-stack smart farming platform using React.js, Node.js, Express.js, and MongoDB.
- Built responsive dashboard interfaces for accessing farming-related services and information.
- Integrated REST APIs for weather monitoring and agricultural data.
- Integrated crop disease detection functionality with AI/ML APIs.
- Implemented reusable React components and responsive layouts for improved user experience.
